- Browns Bridge Community Church (currently under construction), located on Browns Bridge Road to the east of SR 400
- A Georgia State Patrol facility, located on County Way to the west of SR 400
- Settingdown Baptist Church, located on Settingdown Circle, west of SR 400
- A church located on Kilough Church Road, just east of its intersection with SR 400
- Adventist Church, located in the southeastern corner of the SR 400/East Grant Road intersection
- Lighthouse Baptist Church, located on East Grant Road to the east of SR 400
- North Georgia Bible Counseling Center, located on Lords Way, to the east of SR 400

Underground Storage Tanks

- Two gas stations located along Keith Bridge Road at the beginning of the project corridor, to the east of SR 400
- Three gas stations located at the intersection of SR 400 and Browns Bridge Road, two located in the northwest corner of the intersection in proximity to SR 400, and one located east north-east of the intersection, farther along Browns Bridge Road
- One gas station located in the southwest corner of the SR 400/Bottoms Road intersection
- One gas station located in the southeast corner of the SR 400/Jot Em Down Road intersection
- One gas station located in the northeast corner of the SR 400/Dawson County Industrial Park Road intersection
- Four gas stations located at the intersection of SR 400 and SR 53, one in each corner of the intersection
- One gas station in the northeast corner of the SR 400/Harmony Church Road intersection
- One gas station in the southeast corner of the SR 400/Henry Grady Highway intersection
- One gas station in the northwest corner of the SR 400/Whelchel Road intersection

- Two gas stations at the intersection of SR 400 and SR 60, one in the northwest corner and the other in the northeast corner
- Two automobile care facilities located along the project corridor, one located on the west side of SR 400 just north of its intersection with SR 53, and one located along the west side of SR 400 north of its intersection with Auraria Road
- A maintenance shop, which may contain hazardous materials, is located along SR 400 in the project corridor, in the northeast corner of the SR 400/Henry Grady Highway intersection.
- A dry cleaner operation is also located along the east side of SR 400 just north of its intersection with SR 60 and has the potential to contain hazardous materials.

Potential Historic Structures

The table below contains information on the nine potential historic structures located in the SR 400 study area. This information was obtained primarily from the Natural, Archaeological, and Historical Resources GIS (NAHRGIS), the registry designed to catalog information about the natural, archaeological, and historical resources of Georgia. The table includes the NARHGIS ID (if applicable), street location, county, and structure type. Three observed potential historic structures are not registered in NARHGIS and are therefore identified with a NARHGIS ID of "N/A".

As mentioned in the body of the report, these potential historic structures must be examined further by an historical resources professional in order to verify the data in NAHRGIS and observations made during windshield surveys.

<i>NARHGIS ID</i>	<i>Street</i>	<i>County</i>	<i>Type</i>
23763	Harmony Church Road	Dawson	Domestic/Residential-Single Dwelling
23764	Harmony Church Road	Dawson	Domestic/Residential-Single Dwelling
N/A*	Auraria Road N of SR 136	Dawson	Domestic/Residential-Single Dwelling
N/A*	Auraria Road S of Henry Grady Hwy	Dawson	Domestic/Residential-Single Dwelling
31105	5120 Bottoms Road	Forsyth	Domestic/Residential-Single Dwelling
31107	W side Settingdown Road	Forsyth	Domestic/Residential-Single Dwelling
31116	4405 Jot 'Em Down Road	Forsyth	Domestic/Residential-Single Dwelling
31130	4520 Settingdown Circle	Forsyth	Domestic/Residential-Single Dwelling
N/A*	Marsett Pkwy at Settingdown Road	Forsyth	Domestic/Residential-Single Dwelling

*Structure not contained in NARHGIS database. Identified through windshield survey.
